

HIV/STI/Hep C Integrated Plan Community Engagement Sessions - September 2022

As we develop the 2022-2026 HIV/STI/Hep C Integrated Plan, we need YOUR voice at the table. Join us at an upcoming engagement session to learn more and share your thoughts. These sessions are the next step in the engagement events that will occur throughout 2022. We will review the draft strategies, and “polish” the wording of the plan to ensure it reflects the needs of the community.

Unable to attend these sessions? Email us at HIVintegratedplan@azdhs.gov for more ways to make your voice heard. [Email us](#) with questions or ideas, or visit [our website](#).

All times listed below are MST. No registration is needed. Please email HIVintegratedplan@azdhs.gov for a calendar invite.

DATE	TOPIC:	NO NEED TO REGISTER!
Thurs Sept 15th at 4-5:30 PM	FULL INTEGRATED PLAN: Strategy review and wordsmithing	Click here to attend

Wed Sept 21st at 12-1:30 PM	FULL INTEGRATED PLAN: Strategy review and wordsmithing	Click here to attend

The full Integrated Plan consists of four pillars: Diagnose, Treat, Prevent and Respond

Diagnose: screening/testing, raising awareness, and stigma reduction

Treat: HIV and STI care, Hep C cure, and linkage to and retention in care

Prevent: PrEP/PEP, harm reduction, preventing perinatal cases, and more!

Respond: building workforce capacity and responding to outbreaks

For more information on the “pillars” of Diagnose, Treat, Prevent, and Respond, please visit this webpage: click [here](#).

To view the previous Integrated HIV Prevention & Care Plan (2017-2021), please click [here](#). Note that this plan did not include STIs or hepatitis C.
